

Adult Events

Depending on the competition announcement, a wide variety of events are usually offered, including the following events for all ages and skills:

- Dance
- free skating
- pairs
- artistic
- interpretative
- showcase
- synchronized skating

Some competitions are specifically organized only for adults. However, most figure skating clubs host open competitions that offer adult events as part of their venue's announcement.

In any given region, there may be limited entries. To promote competitions when one skater enters an event, the skater may skate an exhibition or skate and be critiqued by the judges.

The Competition Organizers may also reserve the right to combine events in the case of a single entry in any group.

Usually a combined group will skate the items from the lower applicable group; however, the competition announcement will specifically spell out what will occur if this situation arises.

Men and women will be placed in separate groups. Minimum age: 21 years old. Note that the program length for Adult Events have a maximum time limit. Be sure to check competition announcement to prevent a timing deduction.
